

Find out all you need to know about the new Deluxe range from Boema

Learn how you can produce quality espresso from a machine colour matched to suit your interior design.

BOEMA

Australian made coffee machines since 1956

Deluxe - the machine

The new Boema Deluxe range has been developed to provide you with a choice of colours to match your interior design scheme. From lime green to deep claret, you can choose from our existing palette of 16 colours or we can custom make a colour to suit your espresso bar area.

When it comes to machine features, the new Boema Deluxe range has everything you need to deliver coffee to your customers with consistent flavour and quality. From full length swivel arms with improved frothing nozzles, to pulse brew enhanced extraction, the Deluxe range is designed for easy operation by a new staff member or a skilled Barista.

Our machines are designed using the latest technology and are built with commercial grade materials. Plus with a wide range of model sizes, the Deluxe is suitable for many different applications.

Standard colours are Black and Claret.

Other colours are available at an additional cost including: Blue, Lime Green, Pink, Rust, Silver, Teal and Yellow.

The BOEMA Deluxe range is available as a 3 group, 2 group or 1 group machine. Features include:

- **Stylish** and modern design
- **Brilliant** coloured panels
- **Solid** construction
- A **catch tray** under the warming tray
- **Full** stainless steel back and operating panels
- Height **adjustable** legs with rubber soles
- Main controls in **waterproof** casing
- **Low** maintenance and **easy** access to all working parts
- **Quick** recovery boiler
- **Consistent** and smooth milk production.

The Boema Deluxe range are fully built in Australia under quality controlled conditions and are available immediately.

Boema is unlike many of the foreign-based coffee companies and is a leader in the Australian coffee industry because:

Australian made

- Boema has been manufacturing traditional commercial coffee machines since 1956 and is privately owned and operated by the Gibbs family

Reliable service

- Boema provide reliable and prompt local, state and international delivery of machine orders and spare parts
- Machine manufacturing and pre-installation is quality controlled
- Boema provide excellent after sales service, training and demonstrations
- Spare parts are available for your machine's lifetime and new improved parts are easily adaptable
- Boema's equipment, service and importantly, spare parts, are competitively priced

Stylish design

- Boema machines are stylishly designed and built using commercial grade materials and parts

High performance

- Boema's range of high performance machines are robust, affordable and easy to service
- All Boema machines can be purchased outright or leased.

Other products available

- Grinders
- Dripolators
- Filters
- Coffee beans
