

🇬🇧 PIZZA REFRIGERATORS

TECHNICAL FEATURES

- Constructed of stainless steel AISI 304 18/8-10
- Magnetic gaskets guarantee effective seal while they are easily replaceable.
- WN340 series can be equipped with gastronorm pans of 150mm maximum depth
- Evaporators are epoxy coated .
- Injected polyurethane foam insulation, 50mm in thickness (CFC & HCFC free - $42 \pm 2 \text{ Kg/m}^3$ density).
- Refrigeration system : Ventilated on WN800 series. Static on WV340 series.
- Temperature is controlled by an electronic thermostat.
- Defrost sequence is controlled electronically.
- Ambient temperature $+40^\circ\text{C}$ degrees.
- Height adjustable legs

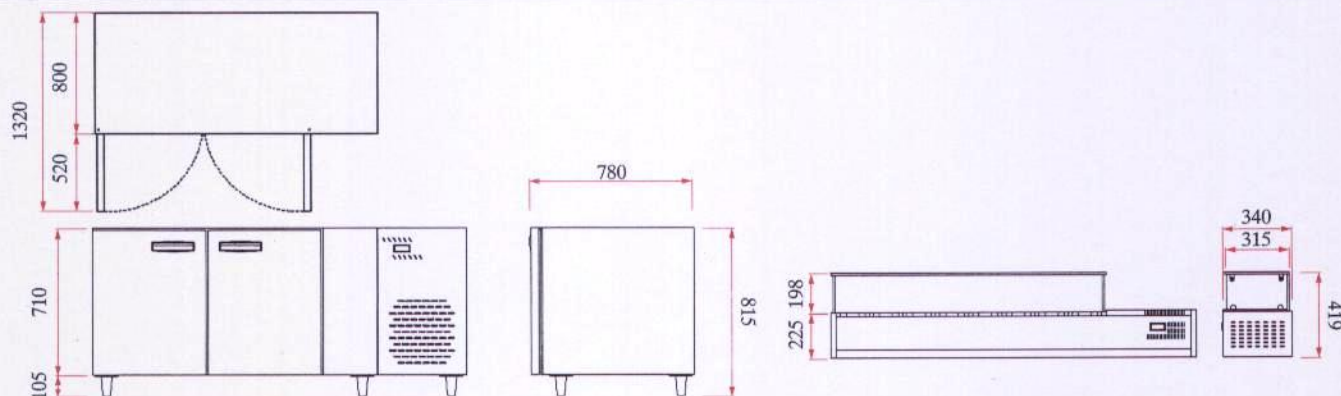

Series WV340
