Food & Soup Warmers

BUFFET PRINCESS

Both these Soup and Food Warmers were specifically designed to keep food at between 80 to 85 degrees celsius, complying with health regulations. Both models use a thermostat to hold the water temperature within one degree and a boil dry protected element.

Made of a durable high quality stainless steel these models are ideal for front line buffet service in hotels and restaurants. These stylish food and soup warmers are finished in an antique silver exterior with long life stainless steel interior.

Both models cook as well as warm the contents of the bowl. They come with a hinged lid and a removeable bowl.

BUFFET QUEEN
