

Sandwich Preparation and Display Counter Blown Air Well

Blown Air Well

Williams Easy Clean features...

...see overleaf

Jade

Benefits

- Refrigerated blown air over all pots – requirement of many stricter health regulations
- Full ducted well around pots – maximizes food holding capability and refrigeration efficiency
- CFC-free polyurethane insulation enhances refrigeration efficiency
- Built to suit any catering environment
- Up to 100mm deep pots — more food holding capability
- Fully foamed counter top for thermal insulation - minimises 'sweating' on external surfaces
- High 43°C ambient storage operation. 32°C operation with covers removed
- Designed and built to international standards
- Ease of routine cleaning and maintenance provided by removable refrigeration **cassette**

- Increased ventilation outlets – more positioning options
- Tough, durable Colorbond® exterior and interior
- Williams Self Closing Door System
- Polypropylene cutting board.

Williams Easy Clean features

- Fully enclosed stainless steel well under food pots – prevents food from dropping through into cabinet
- Removable blown air ducts for easy cleaning. 100% stainless steel – fully washable
- Seamless stainless steel worktop
- Removable cassette gives simple access for regular cleaning of critical refrigeration components
- Full, one piece stainless steel interior floor with upturn
- Recessed handles.
